## About This Game

ClickRaid is an Incremental Game with multiplayer and competitive aspects, inspired by Clicker Heroes and Tap Titans.

Incremental Games consists of a gameplay in which the player does simple actions such as “clicking” or upgrading ingame systems to get more of a currency, in which the goal is to get bigger and bigger numbers. The gameplay also has aspects that are idle, which means most Incremental games aren’t ones that usually require full attention.

ClickRaid features a very important multiplayer aspect: Classes. Those are chosen by the player, and have unique effects on the other members of the party you’re in. The game isn’t meant for solo play!

You will be greeted into choosing your ingame name, then into the Lobby selection menu! Just pick one that has more than 1 person in and read the Tutorial. The game might look very overwhelming at first and even more if you’re not used to Incremental aspects, but don’t worry! The community can always lend you a helping hand with any questions you might have.

There is “reset everything but get bonuses”, which is called Ascending (often known as “Prestige” in other games).

The Prestige in game is a mean to progress ingame, and only resets your Stage count.

There are 5 different currencies ingame:  
XP, BossSouls, RaidSouls, Tokens and Gems

XP is obtained from killing any kind of enemy.

---

BossSouls are obtained from defeating Bosses, while RaidSouls are for their Raid variant.  
Tokens are flying discs that often appear on your screen. Mouse over to collect!  
Gems are obtained from defeating WallBosses, which are stronger Bosses that determine how far you can progress.

There are other systems ingame too that Affect progress, they all work differently:

- Heroes (damage to progress, upgraded with bonuses for heroes and XP)
- Artifacts (varying bonuses only upgradeable with BossSouls)
- RaidSouls (bonuses only upgradeable with RaidSouls)
- Charm (bonuses upgradeable with Gems, with the help of Tokens)
- Inventory (items with bonuses based on your stage progression!)

and a few more!

**Alchemy**

Alchemy allows you to fuse your Supplies, Exotic Crafting Resource and Crafting Resource into a Potion.  
You automatically obtain 60 Supplies an hour while active and 30 while AFK.  
To obtain Exotic Crafting Resource, you need to trash your Exotic Gear Pieces.

These Potions have certain properties:  
They buff the entire party, and if the activator is kicked or leaves their effect is lost.  
The effects of Potions cannot stack.  
The effect you're giving your party is kept on Ascend, not on Lobby switch!

Potion Rarity is not affected by Magic Find!  
Potions last for at least 10min but increased by rarity up to 17min.

I would recommend it if you are into idle/clicker style games. The progression system isnt terrible however it is on the convoluted side. That being said im sure that the more you invest the more worth it it is because of the competitive component.. great idle and achievement grinding game. Friendly community too
